SUMMARY

Motivated Frontend Developer focused on building responsive, user-friendly web apps with React.js. Skilled in Tailwind CSS, JavaScript (ES6+), and RESTful APIs, with experience converting Figma designs into pixel-perfect UIs. Built real-time tools like a currency converter, theme switcher, and password generator using smart state management. Passionate about clean code, performance, and intuitive user experiences.

SKILLS

Programming Languages: C++, JavaScript

Web Development Framework: React, Next.js, Node.js, Express.js

Styling: CSS/SCSS, Tailwind CSS, Material UI, Bootstrap

Version Control: Git

Database: MySql, MongoDB Agile Methodologies: Scrum

EXPERIENCE

Quantish Opinion Mar 2025-Present

Project Manager - Gurugram, Haryana

- Managed end-to-end lifecycle of quantitative and qualitative research studies, ensuring timely and accurate project execution.
- Distributed surveys and research studies to targeted respondent groups through various digital platforms.
- Utilized project tracking tools and dashboards to monitor progress, identify delays, and optimize workflow efficiency.
- Monitored respondent engagement by tracking hits, response rates, and participation metrics.

Svam Inc

Nov 2023-August 2024

React Js Developer - Remote

- · Implemented RESTful APIs to enhance front-end and back-end integration, boosting overall system performance and reliability.
- · Gathered requirements, planned project timelines, and delivered software solutions within budget in collaboration with cross-functional teams.
- Worked closely with the UX/UI team to implement responsive designs and ensure a positive user experience.
- · Conducted unit testing and debugging to maintain the stability and reliability of software applications.
